1. On para 1 of reftel, I think it is too complicated to try to give it to Rumsfeld out there. Just bring it back with you.

2. On para 3, please try to clear up. The only reason for the U-2 flight is to obtain photography which can be released publicly. We do have ~~already~~ good satellite photography.

3. On para 10, I will have a cover memo drafted. Just give me the original when you return.

4. I think all your other paragraphs are self-explanatory. We will move out on them to the extent we can before getting the documents back. Thanks for the rundown.

Warm regards.
